POLICEWOMAN TO LECTURE. Mrs. Alice S. Wells of Los Angeles to Speak Here.

Arrangements have been made for Mrs. Alice Stebbins Wells of Los Angeles, Cal., to lecture at All Saints' Episcopal Church, 14th and L streets northwest, November 19, on "The Need of a Policewoman and Her Work." Mrs. Wells is a policewoman in Los Angeles, a regularly appointed member of the city's police force, having the same powers and authority as the male members of the force. Her work is preventing criminality among the young of both sexes and protecting women and children.

Mrs. Wells is the founder and vice president of the Social Hygiene Society of Los Angeles. Her lecture in this city is one of a number of addresses she is making in the principal cities of the United States in the effort to arouse a general public interest in the matter of preventing women from being forced for the purpose of performing certain definite duties having to do with young people, women and children.

Mrs. Henry F. Blount is the chairman of a special committee named to discuss this question in Washington.

## LEASES NEW HOME

Washington Y. W. C. A. to Remove to Larger Building.

GIVEN BETTER FACILITIES

Association Enabled to Specialize in Its Work for First Time Since Organized.

Planning the longest forward step in the seven years of its existence, the Washington Y. W. C. A. Association early this month will move from the quarters which it has occupied ever since its formation at the corner of 12th and F streets northwest to a more commodious home in the building at 936 F street. A lease has been signed by the association to hold the building for a period of two years, and as soon as the necessary alterations are completed the removal will take place.

In the new quarters the Y. W. C. A. will have more than double the space which is available in its present home. The lease contemplated that the association shall use one-half of the second floor and all of the third floor at 936 F street. The alterations which are in progress will transform the second floor into a general office and a book-keeper's room, a dining room one-third larger than the present dining room and the kitchen—thus concentrating all business departments of the association's work.

ABLE TO SPECIALIZE. For the first time in its existence, the Y. W. C. A. in its new home will have the opportunity to specialize in all its departmental work. The Bible classes will have a meeting place of their own, the Camp Fire girls will have their own room, and the English classes will have independent quarters and library facilities, and be thus enabled to secure the best possible results.

All of these departments will have rooms on the third floor of the building, and on this floor also will be the office of the general secretary. The new gymnasium will have all of one end of this floor.

The Young Women's Christian Association in Washington was organized in December, 1905. It then had a pledged membership of only 700 women and girls. Miss Anna Coker was the first general secretary and served for eight months. During the next five months the association had no general secretary, and it led a precarious existence. At the end of that time, Miss Florence M. Brown, then territorial executive secretary of the Y. W. C. A. in New England, was summoned to Washington, and is still here.

Accommodations Inadequate. Since its organization the association has occupied the three upper floors in the building at the southeast corner of 12th and F streets, but for many months the work has been hampered because of the inadequacy of the building. The Y. W. C. A. has 2,200 active members, and there are more than 400 members of the several classes.

Because the present gymnasium cannot accommodate the 150 members in the "gym" class, a club of girls has organized "gym" classes in the Y. W. C. A. Pleasant Congregational Church. Twice a week also there is a swimming class taught at the Ingram Memorial Church.

Another storm area is developing over the Pacific slope, where it is causing unsettled weather and local rains. This disturbance will advance eastward, crossing the Rocky mountains Monday and the middle west Monday night or Tuesday.

The indications are that the weather will be generally a fall day and Monday in the region east of the Mississippi river and in the west gulf states. There will be local rains Sunday, and probably Monday, in the Rocky mountain and plateau regions, and Monday or Monday night over the plains states and the upper Mississippi valley.

The temperature will rise Sunday and Monday over the gulf states, the great central valley and the lake region, and Monday in the Atlantic states. The weather will become colder in the northwest Monday.

The winds along the New England coast will be moderate westerly; on the middle Atlantic coast light to moderate west and northwest; on the south Atlantic coast moderate north and northwest; on the east gulf coast moderate northerly, becoming variable; on the west gulf coast light variable; on the lower lakes light southwest and west; on the upper lakes moderate southwest and south.

Tide Tables. Today—Low tide, 9:05 a.m. and 9:35 p.m.; high tide, 2:15 a.m. and 2:50 p.m. Tomorrow—Low tide, 10:07 a.m. and 10:11 p.m.; high tide, 3:25 a.m. and 3:58 p.m.

SANTO DOMINGO, November 2.—Alfredo Victoria, minister of war, and nephew of the Dominican president, has resigned and the president has appointed Luis Pelletier to succeed him, while Elias Blanche has been made minister of the interior.

The government has authorized the withdrawal of \$900,000 from the funds deposited in the United States for the payment of debts. The liquidation of the expenses connected with public works and the war is to be attended after peace has been re-established. Repayment of the sum withdrawn is to be made in monthly amounts of \$15,000.

Gen. Frank McIntyre, one of the American commissioners, this week visited Francisco Leonte Vasquez and Gen. Carlos F. Morales, the ex-president, who are continuing in jail here.

There has been no change in the general situation of the country.

Hurt When Car Hits Wagon. A hay wagon in charge of William Bins was struck by a Chevy Chase car at Grant road and Connecticut avenue northwest yesterday and badly damaged. Bins received injuries about the face and knee, but refused to go to a hospital.

## EXTRACTS ARE READ

Tell of Demand That Los Angeles Be Unionized.

DYNAMITE TRIAL FEATURE

Letters Said to Implicate Forty-Five Accused Men Also Presented by Government.

INDIANAPOLIS, November 2.—Extracts from the Ironworkers' Union Magazine, concerning a demand made upon the American Federation of Labor to raise a tax of 1 per cent a month on all its members to unionize Los Angeles, Cal., three years before James B. McNamara, a brother of the secretary of the Ironworkers' Union, blew up the Los Angeles Times building, were read by the government at the "dynamite conspiracy" trial today.

One abstract was a copy of a resolution adopted by the International Association of Bridge and Structural Ironworkers in September, 1907. It asserted that Los Angeles was "a breeding place for strike-breakers of all crafts and trades," and added, "If unionism is crushed in Los Angeles it will be but a short time before the same methods are applied to other cities. The struggle is national in scope and should be financed by the American Federation of Labor."

Many Letters Offered. Many letters which the government charged implicates the forty-five men now on trial were read by District Attorney Charles W. Miller. A letter from Michael J. Hannon, former business agent of the Ironworkers at Scranton, Pa., to J. J. McNamara, as read by Mr. Miller, said:

"If local No. 23 had a million I would not do things for them as they don't know how to keep their mouths shut, and I do not feel prepared to serve time, but I am prepared to do anything, but you know how careful a man must be in an affair of this kind."

Tells of Grainger Job. A letter by William Bernhard of Cincinnati was quoted by Mr. Miller as follows:

"I wish to say that the traveler turned over on the Grainger job. One killed and one injured. They accuse the bridge man of putting acid on the cables. Some of our men have been arrested. I have footed some of the bills personally. Now if some stranger could come around and catch the balance, I am pretty sure the jig is up. I have gotten all of our men off, but the judge said for God's sake don't let this bunch come around here again, or I'll have to do something."

Weather. Fair Today; Monday Fair, With Rising Temperature.

For the District of Columbia, Maryland and Virginia, fair Sunday, Monday fair, with rising temperature; light west and northwest winds.

The disturbance that was over the Atlantic seaboard Friday has passed to sea and its center is now near the Newfoundland Banks. It has been followed by fair and much cooler weather throughout the eastern and southern states, and Saturday morning warnings of frosts were distributed generally throughout the gulf and south Atlantic states, except the Florida peninsula.

Another storm area is developing over the Pacific slope, where it is causing unsettled weather and local rains. This disturbance will advance eastward, crossing the Rocky mountains Monday and the middle west Monday night or Tuesday.

The indications are that the weather will be generally a fall day and Monday in the region east of the Mississippi river and in the west gulf states. There will be local rains Sunday, and probably Monday, in the Rocky mountain and plateau regions, and Monday or Monday night over the plains states and the upper Mississippi valley.

The temperature will rise Sunday and Monday over the gulf states, the great central valley and the lake region, and Monday in the Atlantic states. The weather will become colder in the northwest Monday.

The winds along the New England coast will be moderate westerly; on the middle Atlantic coast light to moderate west and northwest; on the south Atlantic coast moderate north and northwest; on the east gulf coast moderate northerly, becoming variable; on the west gulf coast light variable; on the lower lakes light southwest and west; on the upper lakes moderate southwest and south.

Tide Tables. Today—Low tide, 9:05 a.m. and 9:35 p.m.; high tide, 2:15 a.m. and 2:50 p.m. Tomorrow—Low tide, 10:07 a.m. and 10:11 p.m.; high tide, 3:25 a.m. and 3:58 p.m.

The Sun and Moon. Today—Sun rose 6:29 a.m.; sun sets 4:58 p.m. Tomorrow—Sun rises 6:30 a.m. Moon rises 12:46 p.m. today.

Yesterday's Temperatures. Midnight, 48; 2 a.m., 46; 4 a.m., 41; 6 a.m., 42; 8 a.m., 40; 10 a.m., 42; 12 noon, 45; 2 p.m., 46; 4 p.m., 46; 6 p.m., 44; 8 p.m., 41; 10 p.m., 37; highest, 48; lowest, 37. Relative humidity, 8 a.m., 58; 8 p.m., 52. Rainfall (8 a.m. to 8 p.m.), 0.00; hours of sunshine, 6.0; per cent of possible sunshine, 57. Temperature same date last year, highest, 47; lowest, 32.
